

KOKOTM x **Real Estate
Developers**

Valid prices from January to June 2025

Sell better, spend less.

Quality leads and real results.

Why do you spend so much to sell so little?

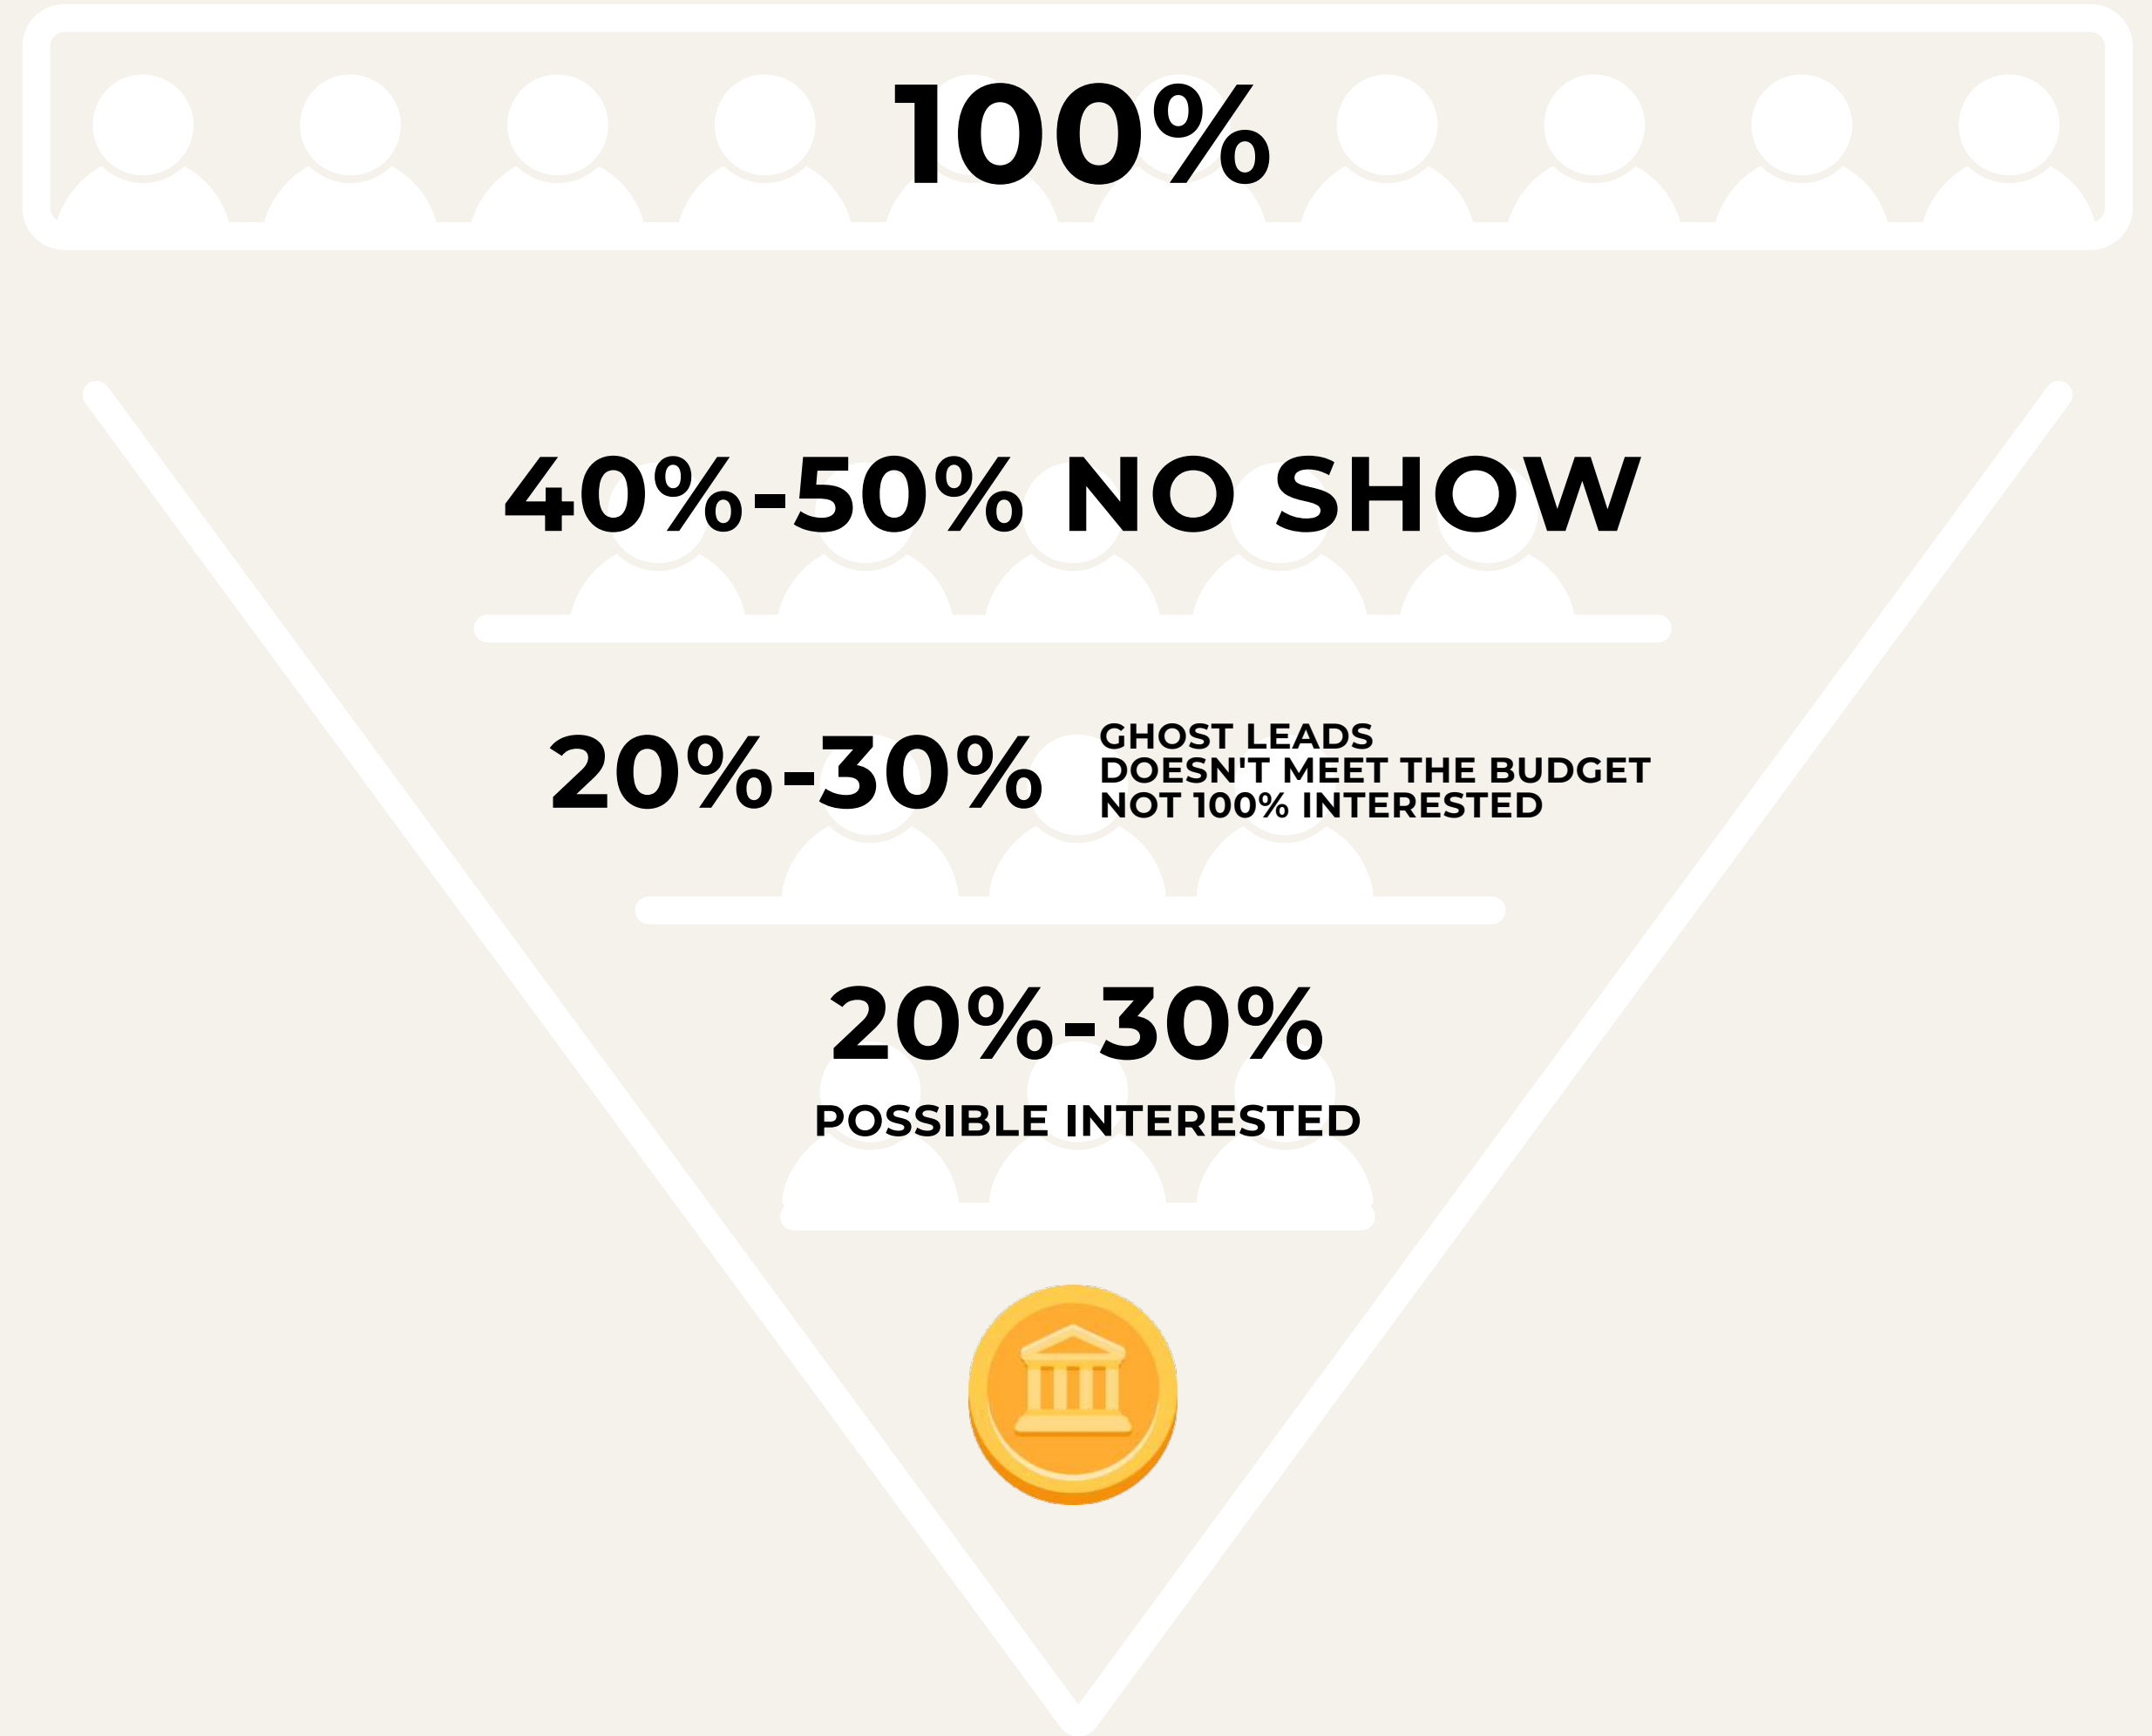

Today, most Real Estate developers *invest between \$20,000 and \$25,000 USD per month* in campaigns, agencies, and influencers, but a large part of that budget is wasted on views without purchase intent.

It's not about exposure, it's about efficiency.
KOKO turns your investment into *leads ready to buy.*

Generate prospects ready to close
